

## How to import .page file into Creative Memories' Storybook Creator software

Unzip the template file, noting where you saved the PAGE folder on your computer. Then...

- 1) Open Storybook Creator Plus
- 2) Create a new project
- 3) Choose 12x12, blank, add desired photos and create.
- 4) Select the Home tab and on the far right select Import Page
- 5) Find the folder on your computer containing the PAGE files and select the template you wish to use.
- 6) Complete your page and save!
